Hi Judith,  
Brendan Lyons emailed and asked me if the state has asked us to list sites related to PFOA on the federal NPL (as part of a piece he is doing on the letter from the senators and representative). I responded that I was only aware of a request to evaluate the Saint Gobain McCaffery Street facility – which we are doing now. I sent him the request letter that we got at that time. The letter from the elected officials also references Petersburg. I noted we would of course respond to the Senators and Representative, though he didn't specifically ask me for a response to the letter.
